DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Housel (5,633,990).

With regard to claims 1 and 5, Housel discloses a method of generating a staggered dither cell for an image to be printed (col 4, line 19 – col 6, line 23)) said method comprising the steps of: writing color component values corresponding to even pixels in first entry locations in said dither cell (col 4, line 19 – col 6, line 23); writing color component values corresponding to odd pixels in second entry locations in said dither cell (col 4, line 19 – col 6, line 23); and mapping said dither cell to a staggered dither cell such that lines of said even pixel values are staggered relative to lines of said odd pixel values (col 4, line 19 – col 6, line 23).

With regard to claim 2, Housel also discloses wherein said writing step further includes writing said color component values in said first and second entry locations in a correct order for printing by a printhead (col 6, lines 19-23).

With regard to claim 3, Housel also discloses wherein said writing step further includes writing a number of color component values in one entry location, said number being determined by loading criteria of a printhead (col 6, lines 19-23).

Allowable Subject Matter

3. Claims 4 and 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 9 and 10 allowed.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Twyler Lamb whose telephone number is 703 - 308-8823. The examiner can normally be reached on M-TH (8:30-5:00).
